What's so great about Western Red Cedar?

Plenty! The most noticeable is its stunning beauty! But underneath those sturdy good looks, you'll find that real Western Red Cedar is the natural choice of value-minded homeowners for some very practical reasons:

Cedar is acclaimed for its built-in resistance to moisture, decay and insect damage. Cedar also excels at maintaining its original dimensions even when subjected to changes in temperature and humidity. It stays straight, grips nails and screws, and even provides a solid base for many types of stains and paints. Properly finished and installed, it could be the last fence your home will ever need!

Western Red Cedar displays a richly textured, tactile grain emphasized by a range of warm, mellow colors. The style of every home gets a boost from the rich look that cedar fencing adds because it fits in with most styles from traditional to contemporary. The subtle fragrance of cedar adds another dimension to its allure. It's time for Western Red Cedar to beautify your home.

Mission

We build and install custom quality fence and railing systems for residential and commercial clients.

Vision

When thinking of quality fencing and railing, people trust **Smucker Fencing**.

Our Values

We are a Christian owned family operated business. As such we support the following biblical values:

HONESTY — We value trustworthy relationships.

QUALITY — is what defines us.

ACCOUNTABILITY — We exceed your expectations.

STEWARDSHIP — We support our employees and communities.

Smucker Fencing is a family owned and operated fencing company, with over 18 years of experience in the industry. We are committed to providing the highest quality of work and always strive for customer satisfaction — we're happy when you're happy.

All of our installation technicians are trained for the job and will treat you in a respectful and mannerly fashion — with a goal to do the job efficiently and correctly. We pride ourselves on prompt, courteous service from your initial call for an estimate, to the installation of the fence by our professional installation crew.
